

## Slim's Last Chance Indoor stage & PA

The indoor PA at Slim's Last Chance is:  
Yamaha SA2112 top cabinets. McCauleyAC215 subs  
Power amps are Mackie and Behringer.  
Console is a Behringer Xenyx XL2400.  
There are 2 monitor mixes on stage – sidefills and a drum monitor.  
The sidefills are Mackie C300 cabs. The drum monitor is a Behringer B215 powered cabinet.  
Sidefills and top cabinets are hung from the ceiling.  
It is a 16 channel snake.  
The stage is approximately 7 inches tall.  
We provide all necessary mics, stands and PA cables.  
We also have an 8'x8' projector screen available on the back wall of the stage. We can play DVD's with our projector or it has a VGA input.  
Load in is through either the front (flat) or the back door (short stairway). We have a drum rug.  
There is a small area for gear storage next to the pool table and the railing. Please keep the aisles clear.  
The stage is small, the room is small so please be gentle with your Stage volume. *Thanks!*
